DETAILED ACTION

Applicant cancels claims 1-4, 13, 51 and 52 and adds new claims 54-77.

The addition of new claims 54-77 requires new restriction.

Election/Restriction

1. Restriction to one of the following species inventions is required under 35 U.S.C. 121:

Any one of the following fragments: amino acid residues 140-154, 134-150, 134-189, 140-163, 140-189 or 163-169 of SEQ ID NO:2.

2. The inventions are distinct, each from the other because of the following reasons:

Amino acid 140-154, 134-150, 134-189, 140-163, 140-189 or 163-169 of SEQ ID NO:2 are structurally distinct.

Because these inventions are distinct for the reason given above and have acquired a separate status in the art, and because the searches for the species are not co-extensive, restriction for examination purposes as indicated is proper.

Applicant is further advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit:

the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 USC 103 of the other invention.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).
